# ICR B180

## Stereo Voice Recorder/MP3 Player/Data Storage Device

*The ICR B180 is a high quality multi-purpose digital notetaker featuring powerful stereo microphones producing a broadcast quality stereo MP3 voice recording.*

Connect to your PC using the unique rotating direct USB input (for vertical or horizontal USB ports) and download your recordings for storage or transmission by email.

Use the **ICR B180** as a removable storage device and save your PowerPoint presentations, Excel spreadsheets, Word documents or any other PC Data you need to take with you to the built-in 128Mb memory, for use at your destination.

Save your favourite MP3 music to the **ICR B180**, which can be played back via the built-in speaker, a stereo headset or external speakers.

The advanced LCD display allows you to easily navigate through the settings of the **ICR B180** or find the information you require in an instant.

With over 8 hours of stereo voice recording, 2 hours of MP3 music and the ability to store data from your computer, the **ICR B180** is an extremely useful companion in both business and leisure.

Increase recording times and storage space by adding additional memory via the Mini SD slot (max 64Mb)
